UPDATES
Employees working 30+ hours are considered full-time.

Full-time employees who are full-time students only qualify for employee permits.

Students taking 12+ credit hours are considered full-time and only qualify for a student permit.

Full-time graduate students will only qualify for a student permit, regardless of part-time employee status.

Students residing in on-campus housing are considered housing students and are only eligible for a housing permit.
An ongoing technical issue with Banner is preventing successful implementation of parking sales.

This issue is impacting multiple departments and may impact MPC sales.

To ensure an equitable process, the lottery will be restarted; previous entries will not be applicable.

We have not received a definitive date on when the issue will be resolved, but we will communicate the new dates to students when it is corrected.

Please monitor our website and social media channels for updates.
Updates

Housing parking guideline

- Students with housing permits are required to park on the top two levels of their facility.
  - We have heard students’ feedback around this policy and will bring it before our advisory committee to reevaluate for Spring 2023.
  - Students can expect communication prior to the spring semester should the guideline be updated.
RATES

- Parking and Transportation is an auxiliary organization.
- Parking rates charged cover the cost of operations, facility maintenance needs, and technology costs.
- This data, paired with the cost of inflation, determine parking fees for the upcoming fiscal year. The necessity for increases are carefully evaluated and are only requested when necessary.
Updates

CAMERAS

- 31 cameras installed in ESD
- Additional cameras approved on all remaining decks (except D Deck)
- Supply chain concerns may delay installs
Update on APO

- Currently pursuing process for accreditation
- Organizations receiving this accreditation are in the top 30% of parking organizations worldwide and meet a level of excellence in the parking industry.
- Site reviewers will be on-site later this year
License Plate Recognition (LPR)

- The department is looking to invest in LPR
  - *Your plate is your permit!*
- Benefits:
  - Greater efficiency, safety and management of parking inventory and more seamless process for subscribers.
- Proposed timeline: July 2023
LPR
Update on PARCS

- Parking Access & Revenue Control System equipment will be replaced/upgraded in West Broad, West Cary, West Main & Eighth St. in the coming months
- One lane will be closed at a time during active working hours
- Moving toward cashless facilities, including special events
Updates

All deck elevators are on a maintenance contract, with inspections occurring twice yearly. Currently working to improve fans, ceilings, and flooring. Additional information will be announced in spring 2023.
MONROE PARK CAMPUS
Broad & Belvidere Deck
- Card access, door replacement, and bumper block removal pending

West Broad St. Deck
- Initial repairs complete; stairwell repairs will commence in mid-November
CONSTRUCTION

Jefferson St. Deck
• Stair repair project has been completed

Bowe St. Deck
• Interior construction completed
• LED light project ongoing
There may be times when quick closures to the tops of parking decks will be needed to mitigate safety issues during inclement weather threats in the coming season.

Sign-up for text alerts at go.vcu.edu/parkingalerts.
MCV CAMPUS
I Deck opened this past summer for students, employees.

Current VDOT construction expected to continue through October 2023.

In early 2023, VDOT will shift sides.
EV Chargers

- Installations on West Broad, N Deck have been well received.
- Three installations on I Deck currently under consideration
- Possibility of a cost to charge in the future
A LOT

- Security
- Redevelopment
  - Timeline is three to four years away
  - Once 7th St. bridge construction has been completed, plans are to cancel lease at Oliver Hill
- Maintenance
  - Limited options for improvement; however, pot holes are filled often and lot is cleaned
Gates were lowered earlier this year. The utilization of all five entrances is strongly encouraged, especially when approaching from Duval St. Majority of parking is available on level 2. Currently evaluating equipment upgrades at entrances/exits.
TRANSPORTATION
RAMRIDE

- Timeliness/efficiency
- A Lot route change
- O Lot
- Sanger Hall stop
The current app is scheduled to be replaced next month. Multi-ridership will mean improved efficiency for everyone.
WHAT'S AHEAD?
IN THE NEXT 6 MONTHS, YOU CAN EXPECT...

- Continued push to install cameras throughout VCU’s parking decks
- Installation of LED lights in additional parking decks
- Summer 2023 construction plan, which will include work on a few parking decks and some surface lot updates
- A final decision on license plate recognition and expected impacts
Q&A, PT. II
THANK YOU FOR JOINING!

- FAQ document will be emailed to registered attendees.
- Meeting recording and FAQs with submitted questions will be posted at https://parking.vcu.edu/news-and-alerts/forums/.
